- Use participant's pretest score for initial placement in this table.
- For the purposes of reporting measurable skill gain on Tables 4, 4C, 8, and 10, each program entry per participant during the reporting period is considered a period of participation.
- Count each participant only once in columns D through G. Total number of participants in column B should equal corresponding total number of participants in other NRS tables. Report the most recent measurable skill gain for a participant who achieved more than one measurable skill gain during a period of participation.

- The number in column D is the number of participants who completed one or more Educational Functioning Level gains as measured in one of three ways: 1) by comparing a participant's initial EFL as measured by a pre-test with the participant's EFL as measured by a participant's post-test; or 2) for States that offer high school programs that lead to a secondary school diploma or its recognized equivalent, an EFL gain may be measured through the awarding of credits or Carnegie units; or 3) States may report an EFL gain for participants who exit the program and enroll in postsecondary education or training during the program year.
- Column E is the number of participants who attained a secondary school diploma or its equivalent.
- Enter only the most recent achievement, if attained, per participant in column D or column E.
- Column F is the number of participants who achieved no measurable skill gain and exited the program. The last day of service cannot be determined until at least 90 days have elapsed since the participant last received services (services do not include self-service, information-only services, activities, or follow-up services), and there are no plans to provide the participant with future services.
- Column G is number of participants who remain enrolled and achieved no measurable skill gain.
- Column $D + E + F + G$ should equal the total in column B.
- Column H is calculated using the following formula: $(\text{Column H}) = \frac{(\text{Column D} + \text{Column E})}{(\text{Column B})}$
- Column I is the total number of periods of participation for each participant. A participant may have more than one period of participation.
- Column J is the number of periods of participation in which a Measurable Skill Gain is achieved. Multiple outcomes are permissible for individual participants with more than one period of participation. Participants may achieve more than one gain per period of participation. However, a maximum of one gain per period of participation is reported in column J.
- Column K is calculated using the following formula: $(\text{Column H}) = \frac{(\text{Column J})}{(\text{Column I})}$

Instructions for Completing Table 5

Note: All shaded columns will be calculated automatically by OCTAE's data system.

For the purposes of reporting on Employment 2nd Quarter, Employment 4th Quarter, Median Earnings, and the Credential indicators on Tables 5, 5A, 8, and 10, each program entry and exit per participant during the reporting period is considered a period of participation.

Do not exclude participants because of missing Social Security numbers or other missing data.

* Report in Column B (second and fourth quarter employment) the total number of participants who exited during the program year, excluding incarcerated individuals under section 225 of WIOA who exited the AEFLA program but are still incarcerated.

** Report in Column B (Median Earnings) the total number of participants who exited during the program year and who were employed in the second quarter after program exit, excluding incarcerated individuals under section 225 who exited the AEFLA program but are still incarcerated.

*** Report in Column B (secondary school credential attainment) the total number of participants who exited during the program year who were at the ninth grade equivalent educational functioning level or higher upon entry, as measured by pretest with approved NRS test, excluding incarcerated individuals under section 225 who exited the AEFLA program but are still incarcerated.

**** Report in Column B (postsecondary credential attainment) the total number of participants who exited during the program year who were enrolled in IET programs, excluding incarcerated individuals under section 225 who exited the AEFLA program but are still incarcerated.

Column C (except for Median Earnings) is the number of participants that achieved each outcome. For Median Earnings reporting, Column C is the median earnings value which is the midpoint between lowest and highest quarterly wage, in U.S. dollars, for the total number of participants who exited during the program year and who were employed in the second quarter after program exit, excluding incarcerated individuals under section 225 who exited the AEFLA program but are still incarcerated.

Column D (except for Median Earnings) is the number in Column C divided by the number in Column B. Column D should never be greater than 100 percent.

Column E is the total number of Periods of Participation for each participant reported in column B. This number will be greater than or equal to the number of participants in Column B.

Column F (except for Median Earnings) is the number of periods of participation for which the outcome was received. For Median Earnings reporting, Column F is the median earnings value which is the midpoint between lowest and highest quarterly wage, in U.S. dollars, for the total number of periods of participation, excluding incarcerated individuals under section 225 who exited the AEFLA program but are still incarcerated.

Column G (except for Median Earnings) is the number in Column F divided by the number in Column E. Column G should never be greater than 100 percent.

Columns D and G are not applicable to Median Earnings.

- In Column C, count one time only each full-time position of the program administered under AEFLA who is being paid out of Federal, State, and/or local education funds.
- In Column D, report the number of volunteer positions (personnel who are not paid) who served in the program administered under AEFLA.

** For reporting Local Teachers:

- Count and report the number of teachers, not the number of positions. For example, if one local part-time teaching position was filled with 3 teachers throughout program year, count and report 3 local part-time teachers.
- Report adult education experience and certification for paid teachers only, not volunteers. The total number of teachers for which experience is reported must equal the total number of teachers reported in Columns B and C.
- For certification, report all certifications a teacher has. Multiple responses are allowed. Report teachers who lack certification in the "No Certification" category.

Instructions for Completing Table 8 (Include only family literacy program participants in Table 8)

Note: All shaded columns will be calculated automatically by OCTAE's data system.

For reporting measurable skill gains:

Enter in column B the total number of Family Literacy program participants enrolled during the reporting period. Enter in column C the number of participants who achieved one or more educational functioning level gains or attained a secondary school diploma. Enter only one of these achievements, if attained, per participant in column C.

For reporting core follow-up outcome measures:

Follow instructions for completing Table 5 to report these outcomes.

For reporting family literacy outcome measures:

Report in Column B the total number of participants who exited during the program year. Do not exclude participants because of missing Social Security numbers or other missing data.

Achievement of one or more of the increased involvement in children's education or children's literacy activities measures should be counted only once per participant. However, the specific outcome should be recorded in the subcategory and more than one outcome may be reported, so that the total for the three subcategories may be greater than the total reported for the overall category. For example, a participant who helped more frequently with schoolwork and increased contact with child's teachers would be recorded in both categories but would be counted only once in the overall category of "increased involvement in children's education."
