

# Handout 6: Methods for Improving Data Quality

## Directions:

In the space provided below, write down the problem or challenge you have been working to solve. Then, as you listen to the presentation and participant contributions, take notes on how the suggested solution might be applied to your specific challenge. You will use your notes to support your state planning time after this presentation.

### My State Problem/Challenge:

--

## Options to aid planning for improvement

1. Communication
2. Training
3. Update Data System
4. Monitoring
5. Motivation
6. Other?

1. Communication Suggestions	How these can apply to our state problem/challenge

<b>2. Training Suggestions</b>	<b>How these can apply to our state problem/challenge</b>
<b>3. Data System Suggestions</b>	<b>How these can apply to our state problem/challenge</b>
<b>4. Monitoring Suggestions</b>	<b>How these can apply to our state problem/challenge</b>

5. Motivation Suggestions	How these can apply to our state problem/challenge
6. Other Suggestions	How these can apply to our state problem/challenge
