

# Handout 9: Reflection

Record your reflections in the chart below, listing ideas for data quality improvement.

- Things you want to **“Go for”** (practices you want to continue, practices you want to adopt, goals you want to reach)
- Things you want to be **“Cautious”** about (practices you might reconsider, information or guidance you need, questions you still have)
- Things you want to **“Stop”** doing (practices that do not adhere to state or federal policy, information that is not correct, methods that are interfering with success)
