ABOUT THE NRS ONLINE COURSES

The NRS support project developed nine (9) online courses for adult education practitioners to learn about NRS and WIOA requirements and strategies to improve NRS data quality and use. Since it is not always possible to attend training in person, these courses are designed to offer flexibility and convenience. NRS online courses are offered through the Moodle learning management platform. Please find links to the right to either (a) create a new log-in to access the courses for the first time, or (b) enter your established log-in information so you can continue working on a course you have started or continue to take other courses within the course catalog. Also to the right, find guidance for professional development staff to assist practitioners in the best use of the online courses.

WHO IS ELIGIBLE TO TAKE AN NRS ONLINE COURSE?

The online training courses are designed for state adult education staff and local adult education program administrators and staff.

WHAT WILL I LEARN FROM NRS ONLINE COURSES?

You will learn about NRS and WIOA requirements and how to improve the quality of NRS data collection and usage. You also will become familiar with the development and purpose of the NRS.
